

Go to <https://developers.facebook.com/apps/>

Hit “Create App”

Select this “Other” then “Business”

A screenshot of the 'Add an app name' step in the 'Create App' wizard. The app name 'OTTM' is entered in the text field, with a character count of 4/30. Below it, the 'App contact email' field contains 'tarekmca3@gmail.com'. The 'Business portfolio' section shows 'No Business Manager account selected'. At the bottom, there are 'Previous' and 'Create app' buttons. The text 'By proceeding, you agree to the Meta Platform Terms and Developer Policies.' is visible above the buttons.

Pick a name then “Create app”

Reconnect

Save changes

Put them In settings/Facebook on “<https://ottm.gizmodz.shop/settings>” page & click save

Go to “Dashboard” then select Facebook Login (click Set up)

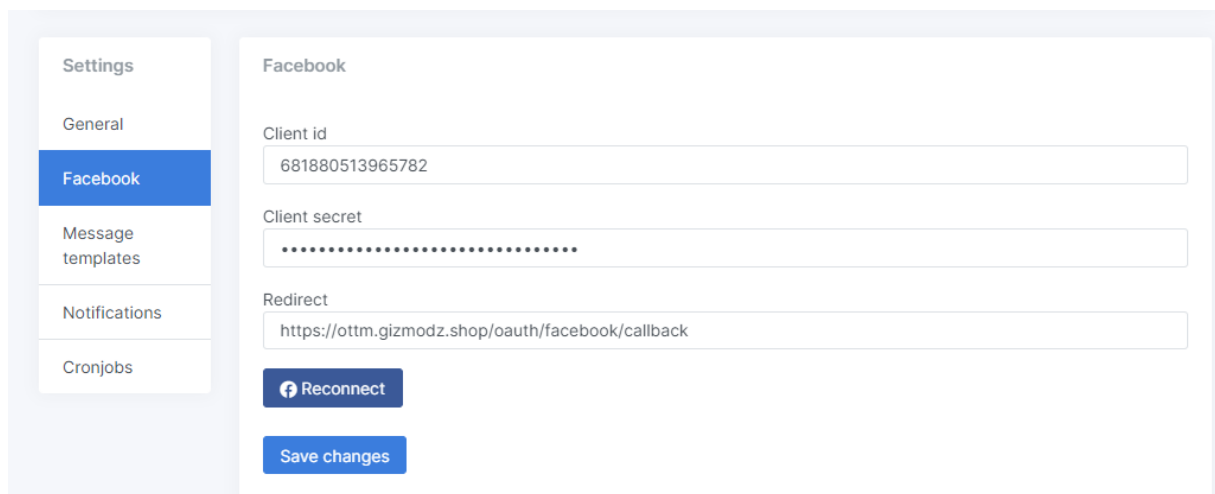

Switch to Facebook Login

#### Valid OAuth Redirect URIs

A manually specified redirect\_uri used with Login on the web must exactly match one of the URIs listed here. This list is also used by the JavaScript SDK for in-app browsers that suppress popups. [?]

## How to use OTTM

- Add your delivery desks from <https://ottm.gizmodz.shop/desks>
- Then you assign to each wilaya a desk from <https://ottm.gizmodz.shop/wilayas>
- You can select the delivery prices manually or click Auto update prices (after assigning desks)
- Add the product you sell on <https://ottm.gizmodz.shop/products>
- You can check conversations on <https://ottm.gizmodz.shop/conversations>
- Create for each of your workers an account on <https://ottm.gizmodz.shop/users>
- you can also ask them to create an account from <https://ottm.gizmodz.shop/resiter> in this case you have to assign a role and permissions in order for them to have access to the platform.
- On settings page <https://ottm.gizmodz.shop/settings> you can edit the general settings of the platform including message that the platform should send to customers.
- In order for the platform to start working automatically you should activate all the cronjobs on settings page.

**Enjoy**
